

I am thrilled to apply for the Junior Backend Engineer (Python & Django) position at FRIENDS CORP. With hands-on experience in Python, Django, and database management, coupled with a passion for backend development, I am eager to contribute to your team and grow as a professional in this exciting role.

In my academic and professional journey, I have demonstrated a strong foundation in backend technologies. Highlights from my experience include:

- **Backend Development:** Developed applications such as *AuctionCraft*, a web-based auction platform, and *GetYourProduct*, an e-commerce site with robust features like product categorization, cart management, and user authentication.
- **RESTful API Development:** Proficient in designing and implementing RESTful APIs using Django, ensuring secure and scalable system architecture.
- **Database Proficiency:** Hands-on experience with PostgreSQL, MySQL, and SQLite for efficient data management.
- **Version Control:** Utilized Git for collaborative development, ensuring seamless project versioning and documentation.

I take pride in my ability to debug, troubleshoot, and collaborate effectively with team members. My tenure as a Software Engineer Intern at RobotTechValley further honed these skills, as I worked on enhancing system usability and implementing secure authentication mechanisms for 100+ daily users.

Joining FRIENDS CORP. would be an incredible opportunity to work with a talented team, deepen my expertise in backend engineering, and contribute to meaningful projects. I am particularly drawn to your focus on fostering a supportive and collaborative culture, as well as the opportunities for professional growth and benefits like team meetups and annual salary reviews.

I am confident that my problem-solving skills, attention to detail, and enthusiasm for learning align with the expectations for this role. I would welcome the opportunity to discuss how my background and passion for backend development can contribute to the success of your team.

Thank you for considering my application. I look forward to the next steps in the recruitment process and can be reached at 01636441892 or hasninehemel85@gmail.com.

Warm regards,

A.K.M Hasnine Mamud
